This paper is devoted
to the question of a subcorpus of copies of Old Russian Parimeynik. This subcorpus includes the Troitsky parimeynik of
the second part of 14th century. The paleography, graphics, phonetics, grammar and textology of this text are investigated. Soon we plan the complex research on and creation of an Internet edition of the Zakhariinsky parimeynik of 1271. This work will reval the consistent development of the Old Russian language and its linguo-geographic stratification.
