Августин "Описание земли новгородской" XI – XV вв.
07.09.2014 г.

The Chronology of Novgorod Chronicles from the 11th to mid-15th Centuries database will provide an opportunity to study calendar systems and to form a clear idea of the astronomical and mathematical state of knowledge in the northwestern Rus' lands. It will provide search criteria to discover layers in chronicles and reveal cultural and historical connections between Novgorod's territory and neighboring and far-away regions such as Byzantium and Rome.
