This paper is devoted to the description of nouns with the agent suffix -tel's; in the Trinity Miscellany (Troitskii sbornik) of the 12th-13th centuries. Analysis of this word-formation type has revealed not only ordinary, traditional nouns from manuscripts of Old Russian and Old Slavonic but also rare or unique word with the suffix -tel's; or hapax legomenon such as ispisatel's; (èñîëñàòàëü).
