

Исторический архив "Исторический архив" 2014 г. № 1

Авторы: Ерофеева А.А., Манускрипт А.А.
07.09.2014 г.

The article deals with the processes of reconstructing the ethnic culture of the Slavs through linguistic means. The study is based on the names of persons derived from ethnicity and geography in the Russian chronicles. As a result of this approach the names most significant for medieval history and culture are identified and analyzed in terms of their derivative features.
